Noxious Weed Technician
WMA Specialists

Job Number: 65878
Job Location: Missoula, MT

Job Description:
A Noxious Weed Technician must be able to identify noxious weed species, native plant species and have a working knowledge of various tree species. The technician must mix and apply herbicides in accordance with manufacturer's specifications and be able to operate and maintain herbicide application equipment. They will be required to keep comprehensive records of work performed within herbicide application areas. A technician will exercise proper use of all equipment in a safe and professional manner, and perform other duties as needed.

Qualifications:
Qualified applicants must be at least 18 years of age and have an interest in noxious weed control and range management. Applicants must possess or be currently pursuing a Bachelor's of Science Degree in Ecology, Forestry, Environmental Conservation, or a related field, hold a valid Montana Driver's License with clean driving record and must have reliable transportation. Applicants will be subject to a criminal background check.
Knowledge and understanding of: plant and tree identification, navigational tools (ie. Garmin/Trimble GPS) that support weed management and re-vegetation efforts, operation and maintenance of equipment, and an understanding of tools.
Ability to: pass a drug test; lift 50+ pounds; withstand a wide range of outdoor conditions including walking long distances, often across steep and difficult terrain; absorb and retain information quickly; exhibit exceptional communication skills; interact in a professional manner; work independently or with a team; competently maneuver on/off-road vehicles including truck/ATV; maintain attention to detail; and be punctual. Must have experience pulling a trailer. No smokers please.

Application Instructions:
Please send resume and cover letter to: wmaspecialists@gmail.com

Application Deadline: 04/01/2016
