Integrated Farming Systems in Vietnam

By Sam Cheney
Who I am

- I am a senior at the journalism school with a minor in climate change studies.
VACB or Biogas Farming: What is it?
Benefits
Things I learned about

- Biogas farms are a great way to offset some of the waste that come with owning a farm.
- That people are going to have different values and beliefs, but everyone just wants to get along.
Moving Forward...
Thank you for coming!
