Winter Wilderness Field Studies Course Syllabus

PTRM 418

Goals
Students will understand Wilderness values, definitions, issues, management strategies, ecology, and traditional skills as they relate to the Mission Mountains Wilderness.

Objectives
Students will be able to:

• Define their personal and legal definitions for Wilderness
• Recall threats to designated Wilderness
• Understand winter-related wilderness management issues
• Comprehend community based stewardship in the Swan Valley
• Demonstrate LNT winter camping skills
• Practice outdoor leadership skills including group dynamics and decision-making
• Demonstrate backcountry medicine principles applicable to winter travel
• Practice avalanche safety techniques and backcountry medicine techniques before and during the backcountry trip
• Measure and monitor winter recreation use
• Identify wildlife tracks, travel patterns, and local ecology of an alpine habitat.
• Understand and apply the fundamentals of risk assessment
• Understand differences in wilderness management between east and west slopes of the Mission Mountains Wilderness

Evaluation of student course work
Expected Learning Outcomes:

• Students will understand personal and legal definitions for Wilderness
• Students will understand threats to designated Wilderness
• Students will understand winter-related wilderness management issues
• Students will understand and apply outdoor leadership skills including group dynamics and decision-making
• Students will understand community based stewardship in the Swan Valley
• Students will understand winter ecology principles
• Students will understand the fundamentals of snow and avalanche science
• Students will understand how to conduct winter recreation monitoring
• Students will understand the fundamentals of risk assessment as it applies to outdoor education
• Students will understand differences in wilderness management between east and west slopes of the Mission Mountains Wilderness
• Students will understand backcountry medicine principles applicable to winter travel
• Students will understand and practice winter wilderness skills, especially as they apply to Leave No Trace principles

Assessment

Undergraduate Credit: Evaluation Criteria & Grading

• 50% Skill development, class participation, attitude, and performance in the field and in the classroom
• 50% written essay exam covering reading assignments, lectures, videos and activities (both indoors and outdoors)

Undergraduate students are responsible for reading assignments on due dates and may be called upon to lead a group discussion.
