

Position Title: Field Crew Member

Location: Bozeman, MT

Duration: TBD

Salary: TBD, based on experience

Company Background

Ethos Geological is a mining, metals, engineering and agriculture consulting firm specializing in field services and drone geophysics. Ethos Geological offers services including mineral target generation and vectoring - geologic mapping, sampling & drilling programs, as well as soil sampling, claim staking and drone based geophysical surveys.

Position Summary

Ethos Geological is seeking outdoorsy individuals to join the Ethos Geological field crew. Field crew duties include soil sampling and claim staking. These duties involve being in the field for 10 hours/day, hiking in mountainous terrain up to 7 miles/day with equipment. Programs often take place in remote areas where lodging on site, hotel or camp, is required for up to 20 days on a rotational basis (20 on/10 off). The position is based out of Bozeman, MT. Travel to site will be provided by company vehicle or mileage pay on personal vehicle.

Preferred Qualifications

- Able to live in remote camps/areas for up to 20 days
- Physically fit, good hiking abilities
- knowledge of GPS units
- Able to lift up to 50 pounds and hike in mountainous terrain
- Organizational skills
- Valid driver's license
